EASY MARK MARKET TIGHT HERE-TRY ENGLAND.

EDITED BY ROBERT EDGRENS

England Is a Happy Hunting Ground for Pugs Who Want Championships.

P HILADELPHIA JACK O'BRIEN'S Jack Palmer, the "English champion," is only another evidence of the Quaker's eunning. O'Brien, in two trips to England, learned all about the British heavyweights. He knows that the softest picking in the world lies across the pond, and that the Hart-Ruhlin combination is comparatively tough

The "heavyweight championship" is a joke in England. The title changes hands at least once a fortnight, on an average. The heavies are all "mixed ale fighters." Each one's greatest ambition is to some time find a "patron" area will provide him with a "pub" or who will provide him with a "pub," or small roadside saloon, to which he can

The champienship goes to any one who claims it, and posts a forfeit with some one for a certain number of days, unless the existing "champion" covers the forfeit and makes a match. Consequently any dub can be "champion."
Why, Jack Scales, Sandy Ferguson, Denver Ed Martin, and two or three others were recognized as champion of England during a month or so that I once spent in London. Just before that Jack O'Brien and Kid McCoy had held the title, successively.

tried to fight another twenty-thirdrater, but the other didn't know how, and Scales didn't know how himself, and was too fat, anyway. "Scales" was just the right name for him. His gross tonnage was the most evident part of his fighting make-up. He puffed and panted through ten rounds without landing punch or executing a sidestep.

Jack Scales was "champion of England' (just like this Palmer pudding that O'Brien is crying for) when Philatha Jack arrived in King Edward's celpts a Jack arrived in King Edward's realm. I don't remember whether Scales was one of the scrappers removed from O'Brien's path by his structure of the scrappers removed from O'Brien's path by his structure. It and it is expected that the largest crowd that has ever witnessed a bout in the Quaker City will be on hand when the fighters enter the ring. The gross receipts will probably amount to over \$17,000, which is the biggest sum ever fought for by two puglilists in that city. Of this sum the fighters will get \$12,750. Nelson will receive \$7,050, while McGovern's and will be \$5,100. that O'Brien is crying for) when Phila- the

But in McCo- Jack Scales found a foeman worthy of his spiel. The Kid. with his cold white face, his sneering lips, can put a sting into ten words that Scales couldn't put into a dictionaryful. He has a very trenchant torque. McCoy leaned over the ropes and made an eloquent appeal to the English champion to get into the ring. Scales, sputtering with rage, rushed out to a dressing-room, got on his togs and came out to fight. He was still frothing when the bell rang.

McCoy, like a flash, sprang from his chair and crossed the ring before the heefy Englishman could more than rise to his feet. The first blow, a victous uppercut, hurled Scales senseless against the post in his own corner, and

uppercut, hurled Scales senseless senseless against the post in his own corner, and McCoy fold me afterward, with cruel satisfaction, that he managed to get in two more hard hooks before the unconscious "champion of England" slipped down to the rioor. McCoy was champion then, of course. When he left England Scales, Ferguson, or some other music hall hero again assumed the fifte.

Jimmy Smith will probably sign articles of agreement to-morrow for his match contest with a Chicago lowler that is to be rolled at Louisville, following the National tournament. Smith and Voorheis will also probably roll in a two-men team contest. When Scales was "champion" his patron was a London sporting man. This gentleman with a contest of the cont gentleman paid Scales a weekly allowance of £1. Possibly a shilling or two at a time, the "champion" borrowed another pound weekly from him. That would make \$10 a week, a pittance that would hardly support a preliminary scrapper in this country. Scales's "patron," of course, made matches for him, sent him around to fight, and pocketed the proceeds—when there were any. They can't have run up like the service of the proceeds o any. They can't have run up like Jimmy Britt's purses, for this particular "patron" told me confidentially that

pay any "champion" when beer was so cheap.

Judging from the recent holders of this English title, O'Brien is wise to take Palmer on before Marvin Hart.

Incidentally O'Brien knows all about Palmer. The Englishman was one of his assistant trainers and rubbers last time Jack crossed the pond. He has as good a line on Palmer, as Terry Mc
Govern has en Johnny Burdick.

SAID AMONG BOWLERS.

A. Mergle, jr., otherwise known as "Handsome Bob," a member of the Hurry Up Club, who make their headquarters at William Baders, No. 300 Fulton street, Brooklyn, has broken into the ranks as a tournament bowler and is one of the stars in the Forester's League at the Palace Alleys.

There has been some talk of Chicago being ready to bid for the national tournament in 1907, but sifted down it appears that all such talk comes from a few soreheads shut out of Chicago club affairs who are trying to knock the sport. Of course, such men always fall.

biundered as president of the governing body in bowling affairs in permitting Steinquest to escape an investigation, but that in allowing the games to be rolled over an injustice would be done to the other teams in the league, as the standing of the two contesting teams in this series of games might be so changed as to affect that of other teams and also the averages of the bowlers. As a member and captain of one of the contesting teams it would seem as though Clingen should have been the first to suggest that the whole matter go to the Executive Committee.

There is no intention to question the honesty of either Clingen or Steinquest in the decision reached or in the possession of the ball except that a precedent might be established which would be injurious to bowling, particularly if it should later appear that a president of the governing body would be weak enough to use his office to the advantage of any particular club with which he might the connected. This point being pointed out to Clingen he will be quick to see the error made Tuesday evening, which was undoubtedly due to judgment and not with intentional abuse of his powers as president of the N. left-hand wallop to the body that sent Logan to the floor helpless.

Logan claimed a foul and was carried to his corner by his seconds. After the injured parts were massaged, Ligan announced that he would continue providing Murphy agreed to clean breaks. The Harlem boy accepted this stipulation, and after a delay of more than three minutes they resumed.

It was soon evident that under the change in the rules Murphy, who is essertially a fighter, was as handicapped as a battle-ship deprived of the use of its turret guns. Logan apparently showed no effects of the low blow, but fought very cautiously and seldom mixed t. Murphy was the aggressor in the last three rounds, though he was unable to land any damaging punches. The fighting at threes was tame, and Murphy deserved the decision by a small nargin.
